

French Immersion Homework Support!

We are delighted to announce that French Immersion students in Bluewater District School Board will have access to the Universalis Online Encyclopedias for the 2015-16 academic year. Universalis Junior is designed to support students from Grades 3 to 8. Universalis Senior is best suited to students in Grades 7 to 12. These sites provide students with excellent resources to support students with projects and research on a range of curriculum areas. The Junior version has the added benefit that it can read the text aloud to the student if required. These can be accessed at home 24/7 using the following links and login information.
